

tailored housing advice

balancing housing markets

affordable housing ...

market housing

Level has:

the solutions to your housing, planning, viability and delivery problems;
a multi-disciplinary team which has gained considerable
experience over the last decade in delivering
affordable housing through the
planning system.

Level specialises in:

policy work on affordable housing at national, regional and local level;
the development of an appropriate evidence base;
section 106 drafting and preparation of heads of terms;
selection of delivery partners and funding guidance;
expert witness at appeal and public inquiry;
viability appraisal and presentation;
advice during the planning process;
pre-planning negotiations;
site specific negotiations;
research and training.

establishing the balance and mix between market and affordable housing
